*Ochiishi Nature Cruise*

# ネイチャークルーズ

*Enjoy the beauty of  
nature to the fullest on  
the calm, open sea.*

Nemuro Peninsula is a small portion of land protruding from the eastern most side of Hokkaido. In the surrounding sea, the salmon, trout and Pacific saury swarm, and, at Nemuro City's Ochiishi, even the octopus and seaweed thrive. In this rich marine environment, the sea birds and other sea life gather for our enjoyment. On a fishing boat operated by Ochiishi's local fisherman, enjoy the scenery of the uncharted Yururi and Moyururi Islands. Depart on the Ochiishi Nature Cruise and enjoy rare and beautiful sights.
